For years I've stated that the absolute number one key to any juniors success in an industry (where failure is the norm) is the strength (or lack of) top-notch management. While Silver Quest Resources (SQI-TSX-V) already had an outstanding team, [the addition announced today](#) (In my bias but honest opinion) makes it even that much better.

Mr. Robert McLeod brings not only a wealth of experience to the table, but his close association with the great success of Keegan Resources and Underworld Resources (among others) should also bring to SQI a number of worthy contacts and interesting parties. The takeover of Underworld Resources has lit a fire under the Yukon gold rush and having one of the key principles from the company that help ignite the rush is a big plus for SQI.

[Randy Turner](#) has without a doubt not only turned SQI around, but has made it one of the most interesting up and coming juniors in the world today.

Please Note – SQI is a client of Grandich Publications [See disclosure](#)
