After chatting with CEO Randy Turner, I can tell you no one is more eager to see the fruits of SQI's labor than I. Yes, it does have something to do with the fact that I own 2 million shares and am a compensated consultant, but it's also has to do with the fact that my long-standing belief that management is the key to any junior appears ready to be proven by mining veteran Randy Turner. I'm absolutely convinced Randy has placed SQI in its best possible position to greatly enhance shareholder value. Trust me, not only will some throw that back in my face if proven wrong, but it will hurt fiscally as well – and that's just from my family!

Randy has also been aggressively [accumulating a very significant personal shares holding with his own monies](#). This is not common in the juniors and another good sign, IMHO.

I would pay attention to a couple of words in [today's press release](#) – “additional staking.” I fully expect this Yukon Gold Rush to get much, much bigger and possibly become the best area play in several years in the junior resource market.

Stay Tuned!

Please Note – SQI is a client of Grandich Publications [See disclosure](#)
