Notes to the Consolidated Financial Statements
November 30, 2007

1. BASIS OF PRESENTATION

These unaudited, interim period consolidated financial statements have been prepared by the Company in accordance with Canadian generally accepted accounting principles. All financial summaries included are presented on a comparative and consistent basis showing the figures for the corresponding period in the preceding year. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual financial statements. Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles has been condensed or omitted. These interim period consolidated statements should be read together with the audited consolidated financial statements and the accompanying notes included in the Company's latest annual report. In the opinion of the Company, its unaudited interim consolidated financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation.

Changes in accounting policies

Effective August 1, 2007, the Company adopted the new recommendations of the Canadian Institute of Chartered Accountants (CICA) under CICA Handbook Section 1530, Comprehensive Income, Section 3251, Equity, Section 3855, Financial Instruments - Recognition and Measurement, Section 3861 Financial Instruments -- Disclosure and Presentation and Section 3865, Hedges. These new Handbook Sections, which apply to fiscal years beginning on or after October 1, 2006, provide requirements for the recognition and measurement of financial instruments and on the use of hedge accounting. Section 1530 establishes standards for reporting and presenting comprehensive income which is defined as the change in equity from transactions and other events from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income but that are excluded from net income calculated in accordance with generally accepted accounting principles.

Under Section 3855, all financial instruments are classified into one of five categories: held-for-trading, held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities. All financial instruments and derivatives are measured in the balance sheet either at fair value except for loans and receivables, held-to maturity investments and other financial liabilities which are measured at amortized cost. Subsequent measurement and changes in fair value will depend on their initial classification. Held-for-trading financial assets are measured at fair value and changes in fair value are recognized in net income. Available-for-sale financial instruments are measured at fair value with changes in fair value recorded in other comprehensive income until the instrument is derecognized or impaired.

As a result of the adoption of these new standards, the Company has classified its receivables as loans and receivables. Accounts payable and accrued liabilities are classified as other liabilities, which are measured at amortized cost.

The adoption of Section 3855 by the Company has had no effect on the financial statements for the period ending November 30, 2007.

2. NATURE AND CONTINUANCE OF OPERATIONS

Silver Quest Resources Ltd. ("the Company") was incorporated under the laws of British Columbia. The Company's principal business is the acquisition and exploration of mineral properties. The Company is considered to be in the exploration stage.

The recoverability of the amounts comprising mineral properties and deferred exploration costs are dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete its exploration and development and upon future profitable production.

SILVER QUEST RESOURCES LTD.

2. NATURE AND CONTINUANCE OF OPERATIONS (Continued)

Continued operations of the Company are dependent on the Company's ability to receive continued financial support, complete public equity financing, or generate profitable operations in the future.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.
